

**Technical Rider: ArYstan**

Live Loop Artist

Urban-Tribal Global Beatz

**arYstan**

**I bring:**

- 2 mics (Vocalmic, Midimic), 1 Loopstation RC 505, Kaosspad 3, Laptop, Korg Minikey, Novation Impulse 25 (Keys) 1 Midi trumpet, E Drum (Roland SPD SX or other) + instruments (Flutes, African Instruments etc), 1 headphone audio and midicables, Focusrite 4i4

**OUTPUT:**

2x Mono Jack (Left/Right) → RC 505 or Roland SPD SX Pro

**I need:**

- 2 mic stand with clamp + XLR cables
- 1 x Extension cable – long enough to connect to your power supply
- 2 mono DI boxes → if not possible 2 XLR cables or Jackcables (long enough) to sent my signal/Mix (Output: RC 505 or Roland SPD SX Pro)
- desk/table 1: 90cm - 1m high, 1.5 m long, 60 cm deep;
- table2 for the E-Drum → small (90cm – 1m high; 40x 40)
- if possible, a small third table for other instruments and a desk lamp in case of darkness

**Requirements of your PA system:**

It's electronic styled music with fat beats and basses, so the PA system should be big enough to reproduce this. If there are subwoofers, that would be fine, which increases the quality of the performance. If there are no subwoofers, its possible too, but if there are any subwoofers, its more fun for everybody 😊

**Position of me towards the PA system:**

Every sound is recorded and sampled live with microphone and virtual instruments. This means, to avoid feedback and noises on the loops, I need to stand behind the PA system. The sound of the PA system should not go into the microphone.

**Soundcheck:**

I need 45 Minutes to install my gear on stage. For the soundcheck I would prefer to get min 30 minutes, to check the sound on your PA and to modify my settings → ca. 1h15. You will need a fine tuned equalizer to drag out feedback frequencies.

This is the turbo version. If there is a possibility of getting more time for the sound check, I would be very happy to take advantage of this.

**No monitors:**

I do not need any monitors. I use my headphones. If you have monitors installed on stage, please switch them off during the show.

**Contact:**

If you have any questions, please contact:
